Although there are several 2016-2017 Board members who begged to be let go, most are sticking around for the 2017-2018 year. We have two relatively new members who volunteered to be nominees for the Board (one or both of them will likely be Presidential material in the near future!). And, finally, a veteran Club member who we had to bribe.

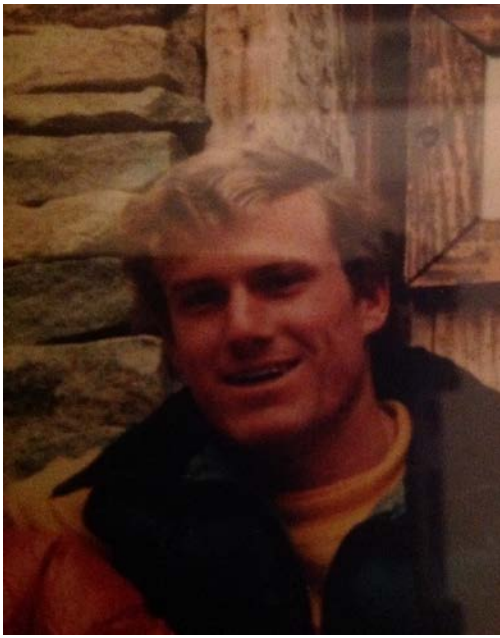

I want to thank the Board of Directors SCBMWRC who served this past year. All of the rides and overnights were special and eventful in their own way, with several more yet to come in May and June.

As these fellows, along with their lovely wives/masters, are volunteers and spend a good amount of time for meetings and ride planning, in addition to leading the "herd", they of course deserve your support, and we ask that all members who are able, attend the election meeting on June 3.
